March 8, 2021

Dear Parents/Guardians,

We recently have had a positive COVID-19 case connected to the 6th grade and 12th grade. There weren't any students at the middle school that needed to quarantine. Eleven high school students needed to quarantine. Each time we have a positive case, we follow the Health Department guidelines since oftentimes each situation is unique. We conduct our own trace testing *in addition* to the Health Department because we find we can move faster. We look at who has been in contact with the individual for 15 minutes or more over a 24 hour period. If it is close, we always err on the side of caution.

If your child does not qualify as a close contact, you will not be contacted. At this time, it is our role to tell all the families of Leslie Public Schools that we are moving forward under the guidance of the Health Department and all measures have been taken to protect the wellbeing of your child(ren). Please continue to monitor for onset of symptoms related to COVID-19, including fever, cough, difficulty breathing, headache, or new fatigue. If you note any change in the health of your child, please call your regular medical provider.

Thank you parents/guardians for communicating with the school. Again, if anyone in the household is experiencing Covid symptoms, please keep your student(s) home and let the school know. Thank you for following the safety protocols! We want to keep our students and staff safe while also providing face-to-face instruction.

Sincerely,

Scott Powers
Superintendent
Leslie Public Schools
